Category: Fern

Name	Size	Long Label Description	Free Stock	Price A Band 1
ASPLENIUM scolopendrium	1.5L	Evergreen fern for shade and moist soil. Easy to grow at the front of a border or in a pot for a shady spot. Handsome leaves are a feature in a woodland border through the year.	16	4.950
BLECHNUM spicant	1.5L	Evergreen fern for part or full shade and damp soil. Ladder-like, shiny green leaves are a feature through the year. Lovely in a shady border or big pot in a shady spot. Prune old leaves off in spring.	17	4.950
DRYOPTERIS affinis Cristata	1.5L	(Syn. Cristata The King) Semi evergreen Fern for part shade and well drained soil. Upright fronds have crested edges, giving a ruffled appearance. New fronds emerge gold /green in spring. Gives texture to a shady border or a good choice for a container in a shady spot.	14	4.950
DRYOPTERIS atrata	1.5L	Deep green leaves which contrast with the fresh green new growth. Makes an upright shape for the middle of a border in sun or part shade. Best in retentive soil. Evergreen. Remove tatty leaves in spring.	26	4.550
DRYOPTERIS erythrosora prolifica	2L	Lacy Autumn Fern. Evergreen fern for part or full shade and well drained soil. Will tolerate a dry spot once established. The dainty golden fronds tinted reddish brown, then turn deep green. Remove dead growth from the crown of the plant in spring.	7	4.950
MATTEUCIA struthiopteris	1.5L	Beautiful fern for part shade and damp soil where it will grow to a great height and add a jungle feel to a bog garden. New leaves unfurl in spring bright green and mature to olive green. Cut off old leaves in late winter.	13	4.950

ONOCLEA sensibilis	1.5L	Fresh green leaves in spring add height to a border in shade and wet or retentive soil. Easy to grow - ideal to give a tropical air to your garden. Looks good in a big container. Dies back completely in winter to reappear the following spring.	13	4.950
POLYSTICHUM setiferum Herrenhausen	1.5L	Semi-evergreen fern for shade and retentive soil. Beautiful lacy leaves are grey-green when young and age to deep green. Ideal for a big container in a shady area or to grow in a shady border with Hostas and other large leaved perennials.	12	4.950
Totals for Category: Fern			118	39.200
Category: Grass				
Name	Size	Long Label Description	Free Stock	Price A Band 1
HAKENOCHLOA macra Aureola	2L	Beautiful grass for sun or part shade and soil which is not too dry. The broad leaves are gold, yellow and green and make a low mound. Dies away completely in Winter and reappears in early spring. Excellent in a container.	12	5.550
MISCANTHUS sin. Kleine Silberspine	2.5L	An upright grower, with narrow, silver green leaves that form an attractive mound. Silvery purple flower plumes in late Summer and Autumn. For sun or part shade and soil which is not too dry.	23	6.550
MISCANTHUS sinensis Ferner Osten	2L	For sun and soil which is not too dry in summer. Reddish green leaves make a good clump and the feathery red flowers appear from late August onwards. Upright growth. Prune to the ground in January before the new growth appears.	13	6.550
MISCANTHUS sinensis Kaskade	3L	For sun or part shade and soil which is not too dry in summer. Long, deep green leaves make a vase shaped, graceful clump and fade to straw through the winter. The silvery grey flowers are borne well above the leaf clumps in late summer and autumn.	8	6.550
MOLINIA caerulea Heidebraut	2L	Upright grass for sun and retentive soil. Flowers appear over a long season from July until November. Leaves change colour in autumn to golden yellow before the plant dies to the ground for the winter. Easy to grow and look after.	21	4.950
MOLINIA caerulea Moorhexe	2L	For sun or part shade and moist soil. Upright growth of deep green leaves. The attractive flower spikes are deep purple, with the flowers crowded closely on the stems. They appear at the end of the summer. Looks good planted in small groups or in a large container. Dies back completely in winter.	36	4.950
MOLINIA caerulea Skyracer	2L	Fast growing grass for sun or part shade and moist soil. Narrow, deep green leaves make an upright clump. Tall, hazy flower spikes from late Summer onwards. Good autumn colours of gold and orange. Deciduous.	14	4.950
MOLINIA caerulea Variiegata	1.5L	Short tufts of green and yellow leaves form a clump in all but dry soils and some shade. Feathery, buff flower heads in Autumn.	10	4.550
PENNISETUM alopecuroides Hameln	2L	Clumps of arching, deep green leaves that change to orange in autumn.	15	4.550

Fluffy flower spikes appear from late Summer onwards. For sun or part shade and retentive soil. Also suitable for a container. Deciduous.

STIPA gigantea	2.5L	Evergreen grass for the back of a sunny, well drained border or as a specimen plant. Suitable for a large container. The leaves make a large clump and the golden oats are borne from early Summer onwards and make good Autumn colour.	22	5.950
STIPA tenuissima	2L	Evergreen grass for sun and well drained soil. Quickly forms fine leaved clumps with attractive silky flower heads, that turn from reddish brown through to sandy yellow. Remove dead growth in spring.	24	4.550
Totals for	Category: Grass		198	59.650

Category: Half-Hardy

Name	Size	Long Label Description	Free Stock	Price A Band 1
ANISODONTEA Lady in Pink	1.5L	Half hardy perennial which flowers for months through summer and into autumn. Flowers like pink Hollyhocks cover the plants, backed by evergreen leaves. Great in a pot or at the front of a sunny border in well drained soil. Requires protection in winter.	14	4.250
DAHLIA Gallery Series	1L	Compact growing plants for the front of a border in sun or part shade. Beautiful, double flowers appear over a long season from mid summer onwards. Excellent as a cut flower and suitable for a large container on the patio. See label for colour details.	8	3.950
Hays 10c basket plants	10c		875	1.550
Hays 9c Basket	9c		3197	1.900
Marguerite/Osteospermum/Geranium	1L	See colour label for details	8	3.290
SALVIA Wendy's Wish	2L	Half hardy perennial which flowers through the summer and autumn. Excellent plant for a large container or sheltered, sunny border. Deep green leaves are evergreen and set off fat spikes of burgundy red flowers which appear from nodding buds.	13	2.500
Totals for	Category: Half-Hardy		4115	17.440

Category: Hardy Geranium

Name	Size	Long Label Description	Free Stock	Price A Band 1
GERANIUM Mavis Simpson	2L	Grey-green leaves make a clump in sun and soil which is not too wet in winter. Saucer shaped, bright pink flowers cover the plants in summer over a long season. Lovely at the front of a border.	14	5.550
GERANIUM Ann Folkard	2L	Border Cranesbill with young leaves of golden yellow that trail on long stems. The flowers are magenta with a black centre, appearing through Summer. Best in some shade and soil which is not too dry.	36	5.550
GERANIUM Black Beauty	2L	Deep purple leaves frame blue flowers in summer. Upright growth for the front of a border in sun or part shade. Best in well drained soil. Remove dead flower spikes to encourage more flowers.	11	5.950
GERANIUM clarkei Kashmir Purple	2L	Finely cut leaves make a clump of ground cover in sun or part shade	7	5.550

and most soil types. Clear purple flowers are produced over a long season from early summer onwards. Easy to grow.

GERANIUM Dusky Rose	2L	Semi evergreen Cranesbill which makes a neat mound. Leaves are a good foil for the pale pink flowers, which are produced through summer. Low growing, suitable for the top of a Cornish hedge, rock garden or the front of a sunny border in well drained soil.	25	5.550
GERANIUM himalayense Gravetye	2L	Attractive scalloped leaves make good ground cover on low growing mounds and colour well in Autumn. Flat, purple blue flowers appear in summer. For sun or part shade and most soil types.	17	5.950
GERANIUM maculatum Vickie Lynn	2L	Lilac-blue flowers in clusters from early summer. Leaves add texture through the growing season and change colour in autumn before the plant dies back in winter. Best in retentive soil and some shade.	7	5.550
GERANIUM Orion	2L	Large, saucer shaped flowers of deep blue appear through summer on ground covering plants. Slowly spreads to make a clump of finely cut leaves. A lovely cottage garden plant for sun or part shade and most soil types.	32	5.250
GERANIUM phaeum Album	2L	One of the best Border Cranesbills for shade in dry or retentive soil. Spreads through the ground each year to make good ground cover. Clusters of white flowers for weeks from late spring onwards, on tall stems. Flowers are loved by bees and other pollinating insects.	16	5.250
GERANIUM phaeum Lily Lovell	2L	One of the first Cranesbills to flower in spring. Upright stems bear clusters of mauve flowers with a paler centre. A good plant to give height in dry shade. Leaves make good ground cover.	31	4.950
GERANIUM Phillippe Vapelle	2L	Easy to grow in sun and most soil types. The rounded leaves are sage green and form a tidy mound. The flowers are deep purple with darker veins and appear at mid summer.	7	5.550
GERANIUM Pink Penny	2L	Mounds of olive green leaves are covered with mauve-pink flowers through summer. A good plant for the front of a border in sun or part shade. Easy to grow - prune hard after flowering.	38	5.950
GERANIUM pratense Mrs Kendall Clark	2L	Very pretty Border Cranesbill with grey blue flowers. Elegant clusters of saucer shaped blooms appear from early summer onwards. Cut old growth to the ground in spring once new leaves are seen. Best in sun or part shade and soil which is not too dry.	21	5.250
GERANIUM psilostemon	2L	Deep magenta flowers with black centres, on long stems during Summer. Can be grown through other plants or allowed to trail along the ground. Beautiful leaves have good autumn colour. Easy to grow in sun or part shade.	14	5.950
GERANIUM Rozanne	2L	Hardy Cranesbill for sun or part shade and most soil types. In flower almost constantly through summer and early autumn when the bright blue flowers with a contrasting white centre appear on long, trailing stems. Excellent plant for the front of a border in sun or part shade.	36	5.550
GERANIUM Sandrine	2L	Bright gold leaves back magenta	7	5.950

pink flowers which are produced over a long season from early summer onwards. Best grown in some shade and allowed to grow through other plants or spread along the ground.

GERANIUM sanguineum Album	2L	Hardy Cranesbill for sun or part shade. Large, white flowers in Summer, over evergreen leaves which form a low mound. Easy to grow.	9	5.950
GERANIUM sanguineum Pink Pouffe	2L	Low growing Cranesbill with semi-evergreen leaves. Makes a spreading mound that's covered in pale pink flowers through summer. Ideal for the top of a Cornish hedge, rock garden or front of a sunny border in well drained soil.	26	5.550
GERANIUM sylvaticum Album	2L	Beautiful tall growing Cranesbill which is best in some shade and cool soil. The white flowers appear in flat clusters above ferny leaves, at mid summer.	8	5.550
GERANIUM sylvaticum Mayflower	2L	Upright clusters of light mauve flowers in late Spring. Best in some shade and soil which is not too dry. The leaves make good ground cover and colour well in Autumn.	13	5.250
GERANIUM Tiny Monster	2L	Makes a low mound of leaves for the front of a border or top of a Cornish hedge in a sunny spot. Covered in rich purple flowers in summer. Great ground cover and a cottage garden favourite.	25	5.250
GERANIUM x cantabrigiense Westray	2L	A beautiful Cranesbill for sun or shade and most soil types. Semi-evergreen leaves make good ground cover. Deep pink flowers are produced over a long season during late spring and summer.	13	4.950
GERANIUM x oxon. f. thurstonianum	2L	Beautiful Cranesbill which is especially useful in dry shade. Leaves make good ground cover and the flowers are deep purple stars with reflexed petals. They appear from late spring to early summer.	17	4.950

Category: Perennial

Name	Size	Long Label Description	Free Stock	Price A Band 1
ACHILLEA Lachsschonheit	2L	Also known as Achillea Salmon Beauty. Flat headed flowers of salmon pink, fading through pale yellow to white flushed pale pink during summer. For sun and well drained soil in an open position. Loved by hoverflies. Good cut flower both fresh and dried.	7	4.250
ACHILLEA Lilac Beauty	2L	Yarrow. Perennial for sun and well drained soil. Ferny leaves make a slow spreading clump topped with flat heads of mauve flowers through summer. Loved by many insects and a good plant for coastal locations. Makes a good cut flower fresh or dried.	33	4.250
AGAPANTHUS Misty Dawn	1.5L	Variiegated leaves frame the soft blue flowers that appear from July to September. For the front of a sunny border in well drained soil or a big pot. Good plant for coastal locations. Deciduous.	10	6.550
AGAPANTHUS Tom Thumb	1.5L	Low growing African Lily for the front of a sunny, well drained border or a container. Clusters of sky blue flowers in summer on slender stems. May require winter	15	5.450

AGAPANTHUS Tregamini on Hybrids	2L	protection in colder counties. Large heads of deep blue flowers in July & August, followed by attractive seed heads. Great for pots & seaside gardens. Evergreen. May require protection in cold weather.	94	5.550
ALCHEMILLA alpina	1.5L	Attractive leaves add texture to the front of a border. Greenish yellow flower sprays in summer. Spreads slowly to make good groundcover. For sun or part shade and most soil types. Deciduous.	21	4.550
ALCHEMILLA erythropoda	1.5L	For the front of a border or between paving stones where it will spread slowly. Easy to grow in most soils and sun or part shade. Tiny yellow flowers in summer which can be dried, pressed or used for miniature flower arrangements.	8	4.250
ALSTROEMERIA Inca Goal	2L	Beautiful flowers are deep pink with yellow markings and appear on long stems through summer. Ideal for a large container or to grow in the middle of a sunny border. A flower arranger's favourite.	45	5.950
ALSTROEMERIA Inca Husky	2L	Dwarf growing for the front of a border in sun and well drained soil. Orange and peach flowers are good for flower arranging and appear over a long season through summer. Dies back through winter but spreads slowly each year.	36	5.950
ALSTROEMERIA Inca Vi to	2L	Exotic looking red flowers are produced continuously through summer. Best in the middle of a border in sun and well drained soil. Excellent as a cut flower lasting for weeks in a vase.	35	5.950
ANEMONE hup. Hadspen Abundance	2L	Single, deep rose flowers in late Summer and Autumn, on sturdy stems. Best in some shade and soil which is not too dry.	17	4.950
ANEMONE September Charm	2L	For sun or part shade and soil which is not too dry. Purple tinted stems and outer petals, which contrast well with the alternate rose pink petals. Flowers are produced from early autumn onwards.	8	4.950
ANEMONE sylvestris	2L	White flowers on slender stems in late spring and early summer. Parsley like leaves slowly spread through the ground. For sun or part shade and hums rich, retentive soil.	11	4.950
ANEMONE x hybrida Honorine Jobert	2L	A beautiful white form of the Windflower, with large flowers which have golden stamens. Useful late colour in a shady spot where the soil does not dry out.	26	4.950
ANEMONE x hybrida Konigin Charlotte	2L	Strong growing variety of Japanese Windflower, which produces single pink flowers over a long season from late Summer onwards. Tall stems which do not require staking. For sun or shade in most soil types. May be invasive.	12	4.950
ANEMONE x hybrida Margarete	2L	Pretty form of Japanese Windflower with fully double, pink flowers in Autumn. For sun or shade and soil which is not too dry. Spreads to make good ground cover.	15	4.950
ANEMONE x hybrida Whirlwind	2L	Japanese Anemone. Ruffled white flowers with twisted petals, on tall, wiry stems in late summer and autumn. Easy to grow in sun or part shade and soil which is not too dry. Spreads slowly each year.	14	4.950
ANTHEMIS tinctoria E C Buxton	2L	Lemon yellow daisies through	11	4.950

		summer, set off by deep green ferny leaves. Grow in sun and well drained soil for best results or in a large container. A lovely plant for a herbaceous border and an excellent cut flower.		
ARTEMESIA stelleriana	2L	Silver leaved perennial, thrives in sun & a well drained soil, where it will slowly spread. Lacy leaves look good at the front of the border with purples and blues. Prune old growth in spring.	27	4.550
ARTEMISIA Lambrook Silver	2L	Silver leaves are a great back drop to the small yellow flowers in late summer. A good plant to grow in a gravel garden or as a foil to other plants. For sun and well drained soil. Drought tolerant once established.	8	4.950
ARUNCUS dioicus	2L	Forms a large clump of handsome, bronze green leaves and upright growth. Creamy white plumes of flowers in summer. For sun or part shade and good soil.	26	4.950
ARUNCUS dioicus Kneffii	2L	Finely cut leaves add texture to a border in sun or part shade. Spikes of fluffy white flowers in early summer are followed by attractive seedheads. The leaves change colour in autumn to yellow and gold before falling. Does best in retentive soil.	17	4.950
ASTER Autumn Jewels Aqua Compact	2L	A mound of lavender blue flowers in late summer and early autumn. Ideal for the front of a border in retentive soil or a big pot in a sunny spot. A true perennial which will die back in winter and reappear in spring.	21	4.550
ASTER Autumn Jewels Granat	2L	Makes a mound of deep green leaves that is covered in cerise flowers in late summer and early autumn. Great at the front of a sunny border in retentive soil or a big pot. Flowers are attractive to bees and other insects.	23	4.550
ASTER Autumn Jewels Rose Quartz	2L	Compact Michaelmas Daisy for the front of a border in sun and retentive soil. Soft pink daisies cover the plants in late summer and autumn. Easy to grow and also suitable for a large container.	22	4.550
ASTER Bahamas	2L	Compact form of Michaelmas Daisy for sun and soil which is not too dry in summer. Rounded growth is smothered in deep cerise daisies from July until autumn. Easy to grow and also suitable for a container.	16	4.250
ASTER Coombe Fishacre	2L	Dusky pink flowers with deeper centres on arching stems in late summer and early autumn. Great for a cottage garden. Loved by bees and butterflies. Long lasting as a cut flower in a vase.	18	4.550
ASTER Cornish Clouds	2L	Discovered on our nursery as a chance seedling and named by us. Compact habit - covered in lilac blue flowers in late summer & early autumn. Healthy deep green leaves. Easy to grow in sun and retentive soil.	22	4.550
ASTER ericoides Blue Wonder	2L	Makes a neat mound for the middle of a border. Covered in tiny blue daisies in autumn followed by fluffy seed heads. Flowers are loved by bees and the plant needs no staking. Best in retentive soil and a sunny spot.	13	4.550

ASTER frikartii Jungfrau	2L	Purple-blue daisies are produced for months from July onwards. Rounded leaves make a spreading mound for the front of a border. Best in full sun and retentive soil. Dies back completely in winter to reappear in late spring.	8	4.950
ASTER lateriflorus var. horizontalis	2L	Beautiful Aster for late summer and autumn colour. Mound like habit which does not need staking. Covered in masses of tiny pink flowers with fluffy centres for weeks. Flowers are loved by butterflies and bees. Slowly spreads through the ground each year. Cut back in spring once new shoots are seen.	30	4.550
ASTER novi-belgii Lady in Blue	2L	Double powder blue flowers over several weeks in Autumn. Compact and low growing. Ideal for exposed gardens. For sun or part shade and soil which does not get too dry.	13	4.250
ASTER novi-belgii Marie Ballard	2L	Large flowers of lavender blue, which are fully double and appear in early Autumn. For sun or part shade and soil which is not too dry in summer. Compact, strong plants. Makes a good cut flower.	15	4.250
ASTER Samoa	2L	Low growing form of Michaelmas Daisy with deep blue flowers that cover the plants from July until autumn. For sun and soil which is not too dry in summer. Also suitable for a large container. Attractive to butterflies and other insects.	40	4.250
ASTER Winston S Churchi I I	2L	Upright growing Michaelmas Daisy for the middle of a sunny border. Beautiful clusters of semi-double, cerise-red flowers in autumn. Easy to grow and makes a good cut flower.	11	4.250
ASTER x frikartii Monch	2L	Much sought after form of Aster which flowers from midsummer until late autumn. Large, soft blue daisies with yellow centres on spreading plants. For the front of a border. Loved by bees and a great cut flower.	9	4.950
ASTER x frikartii Wunder von Stafa	2L	Beautiful blue daisies with yellow centres from early autumn onwards. Bushy plants make a neat mound for the front of a border and need no staking. Best grown in full sun and retentive soil. Hardy and easy to grow.	8	4.950
ASTILBE chinensis var. pumila	2L	Upright growth of bronze green leaves, which set off the heads of deep pink flower spikes, appearing in late spring and early summer. For sun or part shade and soil which does not dry out.	27	4.950
ASTRANTIA Hadspen Blood	2L	One of the darkest of all red flowering Astrantias. Deep wine red flowers through Summer, held above Maple like leaves. For sun or part shade and soil which is not too dry in Summer.	7	5.550
BERGENIA Autumn Magic	2L	Glossy, evergreen leaves are salt resistant and make good ground cover. Clusters of bright pink flowers in spring and again in autumn are loved by bees. Easy to grow in sun or part shade.	25	4.550
BRUNNERA macrophylla	2L	Perennial Forget Me Not. A great plant for dry shade - especially under trees - and in other shady areas. Heart shaped leaves make good ground cover and sprays of bright blue flowers appear over a long season from late spring onwards.	9	4.950

BRUNNERA macrophylla Variegata	1.5L	Beautiful rounded leaves are variegated white and green. Makes a handsome clump for the front of a border in dry shade. Clusters of small blue flowers for months from late spring into summer. Grow in shade to avoid scorching the leaves.	7	5.550
CAMPANULA lactiflora Loddon Anna	2L	For the back of the border in sun or part shade and soil which is not too dry. Clusters of smoky pink, bell shaped flowers on long stems through Summer. May require staking. Long lived in the garden.	70	4.550
CAMPANULA takesimana alba	2L	Lovely plant for part shade and soil which is not too dry in Summer. Slowly spreads through the ground to make a clump of handsome leaves. Creamy white bell shaped flowers in clusters during July and August. Makes a good cut flower. Guard against slugs in Spring.	13	4.950
CAMPANULA takesimana Elizabeth	2L	For part shade and free draining soil. Beautiful, deep maroon bells which hang in clusters, during Summer. Upright growth which may require staking.	10	4.550
CENTAUREA macrocephala	2L	Reliable perennial for sun or part shade and all but dry soils. Coarse leaves form a good clump of ground cover and during Summer tall stems are topped with large yellow 'Cornflowers' which are loved by bees.	9	3.550
CROCOSMIA George Davison	2L	Chrome yellow flowers on tall, wiry stems from mid summer to autumn. Fresh green, sword shaped leaves slowly spread to form a clump in sun and soil which is not too wet. Easy to grow. Non invasive.	20	3.950
CROCOSMIA masoniorum	2L	Handsome perennial for a sunny spot. Fresh green sword shaped leaves slowly spread through the ground. Burnt orange flowers on wiry stems in summer. Easy to grow and great for seaside gardens.	7	3.950
CROCOSMIA pottsii Culzean Pink	2L	An unusual form which has small, luminous orange pink flowers for weeks through late summer. Deep green leaves make a vigorous clump and may spread quickly.	21	3.950
CYCLAMEN coum album	9c	Hardy Cyclamen. Flowers appear from winter to spring and are white or pale pink. Excellent to naturalise under trees and in other dry shady spots.	15	2.990
CYCLAMEN Pewter Leaf	9c	Hardy cyclamen. Excellent under trees and in dry shade. Mixed flower colours from blush pink to deep pink and purple shades. The flowers appear from late summer into autumn.	40	2.990
DAHLIA Dayalya Series	2L	Exotic flowers add colour to the summer border or a big pot. For sun or part shade and soil which is not too dry. Great for a tropical look to the middle of a border and a lovely cut flower.	7	4.550
DAHLIA Happy Single Series	2L	Brightly coloured flowers cover the plants through summer and contrast with the deep purple leaves. Compact habit - ideal for the middle of a border or a big pot on the patio. Flowers are loved by bees.	52	3.950
DAHLIA Mystic Dreamer	2L	Beautiful Dahlia with soft pink and blush white striped petals which are set off against deep mahogany black leaves. For sun or part shade and soil which is not too dry in summer. The flowers are produced from	13	4.550

DAHLIA Mystic Illusion	2L	midsummer until autumn. Excellent as a cut flower and in a container. Bright yellow flowers are set off by deep purple black leaves that are a feature in their own right in the herbaceous border. An excellent plant for cutting and to grow in a container. Best in sun or part shade and soil which is not too dry in summer.	33	4.550
DICENTRA Luxuriant	1.5L	Blue grey, ferny leaves appear in early spring, slowly spreading from rhizomes. The deep pink locket shaped flowers hang from slender arching stems and appear from late spring onwards. For partial shade and soil which is not too dry in summer. Dies down completely in winter.	8	4.950
DODECATHEON meadia ( Shooting Star)	1.5L	A beautiful plant for shade and moist soil. Pink flowers with reflexed petals on strong stems in Spring. Needs a sheltered site. Summer dormant.	7	4.950
ECHINACEA purpurea Powwow Pink	2L	Compact variety of Cone flower which has mauve-pink flowers from midsummer onwards. Ideal for a sunny border in retentive soil. Flowers are very attractive to bees and some butterflies.	9	5.250
EPIEDIUM warleyense Orangekoni gin	1.5L	Excellent evergreen ground cover in dry shade. Slowly spreads through the ground. Delicate spires of flame orange and copper blooms appear in spring. Remove old leaves to the ground in spring once the new ones appear.	39	4.950
ERIGERON karvinskianus	9c	Spanish Daisy. Pretty plant for sun or part shade and well drained soil. The small, white, yellow centred daisies are produced for months, from late Spring onwards. Excellent on a hedge or in paving, where it will self seed. Good plant for coastal gardens.	100	2.950
ERYNGIUM Neptune`s Gold	2L	Golden leaves are a good back drop to the deep blue thistle-like flowers that appear in summer. Flowers are long lasting and can be dried. Ideal for coastal gardens in a sunny position and well drained soil. Drought tolerant.	24	5.950
ERYSIMUM Sweet Sorbet	2L	Evergreen, perennial wallflower for sun and well drained soil. Clusters of scented, deep purple flowers in Summer. Easy to grow in most situations.	17	5.250
EUPHORBIA gri ffi thi i Fi reglow	2L	Beautiful deciduous Spurge for sun or part shade and soil which is not too dry. The luminous orange flower heads appear in clusters on top of tall stems in late Spring. Autumn leaf colours of red and orange.	10	5.250
EUPHORBIA martini i Rudolph	2L	Evergreen Spurge for sun and well drained soil or a large container. New leaves in spring are deep mahogany red and contrast with the greenish yellow flowers. Ideal for coastal gardens.	48	4.950
EUPHORBIA x martini Ascot Rainbow	2L	Evergreen perennial for sun or part shade and most soil types. Sage green leaves are edged with gold and the new growth is flushed pink in spring. Yellow flowers with red centres appear in clusters at the ends of the branches from early spring. A good choice for coastal gardens, gravel gardens and	14	4.950

		containers.		
GAILLARDIA Arizona Series	2L	Perennial for sun and retentive soil. Apricot-orange flowers appear for months through summer above mounds of hairy green leaves. A great cottage garden plant that's easy to grow and a good cut flower.	7	3.950
GAILLARDIA x grandiflora Kobold	2L	Large, red and yellow daisies for months in Summer and Autumn. Deadhead regularly to encourage more flowers. Dwarf grower for sun and well drained soil. Useful in exposed gardens.	34	4.550
GALEGA officinalis	2.5L	Good filler for the back of a border in sun and soil which does not get too dry. Tiny, mauve pea like flowers for months in Summer. Pretty leaves give a lacy effect. May require staking.	17	4.550
GEUM coccineum Koi	2L	Bright orange flowers on slender stems from late spring into summer. Makes a solid clump of leaves that are good ground cover in part shade and damp soil. Fluffy seed heads follow the flowers for later interest.	21	4.950
GEUM Flames of Passion	2L	For sun and retentive soil. Orange-yellow flowers appear from late spring until early summer and are held on slender stems. Fluffy seed heads follow and the plant makes a clump of low growing leaves.	7	4.950
GEUM Mrs. J. Bradshaw	1.5L	Fully double, scarlet flowers on tall stems, throughout Summer and into Autumn. For sun or shade and all but dry soil. Easy to grow. Leaves are evergreen.	24	3.550
GEUM rivale Leonard's Variety	1.5L	Charming perennial for part shade and damp soil. Nodding heads of reddish brown flowers appear on short stems above the ruffled green leaves from late spring in to summer. Attractive seed heads follow. Easy to grow and good ground cover.	13	3.950
GEUM Tequila Sunrise	1.5L	Yellow flowers with a red edge appear on wiry stems over a long season from late spring onwards. Good for a part shaded border and soil that isn't too dry in summer. Flowers are loved by bees.	16	5.250
HELENIUM Moerheim Beauty	2L	Valuable perennial for colour from late summer onwards. Mahogany red daisies appear from green buds on top of stiff stems. Easy to grow in sun and soil which is not too dry in summer. Prune old growth to the ground in spring once the new growth has started.	7	4.950
HELENIUM Rubinzweg	2L	Compact grower with burnt red daisies which have brown centres, providing valuable colour in late Summer. For sun and most soil types. Makes a good cut flower.	7	4.950
HELENIUM Sahin's Early Flowerer	2L	For sun or part shade and soil which is not too dry in summer. Brownish crimson daisies, which have a gold edge, cover the plants in summer and early autumn. Easy to grow, with a long flowering season. Prune out old growths in spring.	15	4.950
HELENIUM The Bishop	2L	Valuable late flowering perennial with mustard yellow 'daisy' flowers that have brown central cones in late Summer. For sun or part shade and soil which is not too dry. Prune in spring once new growth is seen.	14	4.550

HELENIUM Wauldtraut	2L	Coppery yellow daisies on stiff stems in late Summer and Autumn. A useful late perennial for the middle of a sunny border in soil which is not too dry. Prune old growth to the ground in spring.	8	4.950
HELENIUM Wesergold	2L	Beautiful perennial for sun and retentive soil. Bright golden-yellow daisies on upright stems from June until September. Attractive seed heads follow. Prune the old growth to the ground in spring when new leaves are seen.	10	4.950
HELENIUM Wyndley	2L	Orange yellow flowers on stiff stems in late Summer and Autumn. A valuable late perennial for sun and soil which is not too dry in summer. Prune old growth to the ground in spring once the new growth has started.	14	4.950
HELLEBORUS White Lady Spotted	2L	Evergreen perennial for part shade and most soil types. Handsome, deep green leaves set off the nodding, spotted white flowers which appear from late winter through spring. Attractive seed heads follow the flowers.	14	7.250
HELLEBORUS x hybridus	2L	For shade and most soil types. Especially useful under trees for spring flowers. Cut off old leaves when the plants begin to flower. These plants are raised from seed, so the colours will vary from white through to deep pink and purple on individual plants.	39	5.950
HELLEBORUS x hybridus White Lady	2L	For part shade and most soil types. Evergreen leaves make good ground cover. Nodding flowers in spring are pure white or white with freckles, fading to green. Remove old leaves in spring, to show off the flowers. Self seeds easily.	10	7.250
HEMEROCALLIS Anzac	2.5L	Dark red flowers, with yellow centres at mid Summer. Easy to grow in sun or part shade and most soil types. Leaves are semi evergreen.	7	4.250
HEMEROCALLIS Bailey Hay	2L	Low growing form of Day Lily with large, apricot pink flowers, which have a good scent. Mid summer flowering. For sun or part shade and soil which does not get too dry. Good ground cover.	7	4.250
HEMEROCALLIS Blue Sheen	2L	Unusual Day Lily with lavender & cream flowers. Best grown in part shade to preserve the flower colour - fades quickly in full sun. Slowly makes a clump of evergreen leaves. Easy to grow.	8	4.250
HEMEROCALLIS Bonanza	2L	Large, bright yellow flowers which have a contrasting reddish brown centre, appear over a long season from mid summer onwards. Easy to grow in sun or shade and most soil types. Deciduous.	27	4.250
HEMEROCALLIS Christmas Is	2L	Dwarf form of Day Lily which has deep red flowers with a chartreuse green throat. These are borne in summer. Easy to grow in soil which is not too dry and sun or part shade. Slow to multiply.	11	4.250
HEMEROCALLIS Destined to See	2L	Beautiful, low growing Day Lily which has creamy lavender flowers, with a deeper lavender centre and olive green throat. Makes a compact clump in sun or part shade and most soil types. Unusual colour, easy to grow and good ground cover.	13	4.250
HEMEROCALLIS Dorothy McDade	2L	Clear yellow trumpets on sturdy	10	4.250

stems in Summer. Scented. For sun or shade and soil which does not get too dry.

HEMEROCALLIS Doubl oon	2L	Tall growing Day Lily with large, golden yellow flowers in Summer, which are sweetly scented. For sun or part shade and soil which does not dry out. Easy to grow.	40	4.250
HEMEROCALLIS Little Bumble Bee	2L	Bright yellow flowers which have a conspicuous mahogany red centre. Low and compact growth of deep green leaves. For sun or part shade and soil which is not too dry.	25	2.500
HEMEROCALLIS Little Missy	2L	A beautiful, compact form of Day Lily, which has flat flowers of deep purple with a golden yellow throat. Clumps up well in good soil which is not too dry. For sun or part shade.	16	4.250
HEMEROCALLIS Mini Pearl	1.5L	Day Lily for sun or part shade and soil which is not too dry in summer. Compact grower which has ruffled, ivory buff flowers in summer. Deadhead regularly. Clumps up slowly. Deciduous.	9	4.250
HEMEROCALLIS Neyron Rose	2L	For sun or part shade and most soil types. The beautiful flowers are terracotta pink, with a broad white midrib on every other petal. They appear on strong stems in summer. Divide plants after a few years to maintain vigour.	9	4.250
HEMEROCALLIS Stella De Oro	2L	Bright yellow flowers in clusters through summer. Deep green leaves make a clump at the front of a border. Looks good with grasses and other perennials. For sun or part shade and retentive soil. Easy to grow.	15	3.550
HESPERANTHA coccinea Mrs Hegarty	2L	A cottage garden favourite for sun and retentive soil. Dainty pink flowers appear in autumn and early winter during mild weather. Spreads slowly and a great cut flower. May require protection in cold areas.	20	4.950
HEUCHERA Can-can	2L	Soft purple leaves are a feature through the year. Easy to grow at the front of a border or in a container. Spikes of white flowers appear in summer. Remove faded flowers to encourage more.	7	5.950
HEUCHERA Green Spice	2L	A beautiful evergreen perennial for sun or part shade and most soil types. Pale green leaves are laced with cream and have deep burgundy central veins. Spikes of white flowers appear in summer. Easy to grow at the front of a border or in a container.	43	5.950
HEUCHERELLA Brass Lantern	2L	Evergreen perennial for part shade and soil which is not too wet in winter. Deep gold leaves have a red central star and the plants are covered in spires of white flowers through summer. Excellent at the front of a shady border.	51	5.950
HEUCHERELLA Tapestry	2L	Evergreen perennial for part or full shade and soil which is not too wet in winter. Pale green leaves have dark veins and spikes of pink flowers appear from spring until autumn. Suitable for a woodland border or large container.	49	5.950
HOSTA Rippled Honey	2L	Glossy bright green, wavy leaves make an attractive clump at the front of a shady border or in a large container. White flower spikes in late summer are held well above the leaves. Guard against slugs and	15	4.550

		snails.		
HOSTA Big Daddy	2L	Large blue green, puckered leaves. Looks good in a large container or in a border in shade and moist soil. Pale lilac flower spikes in late Summer.	9	5.550
HOSTA Devon Green	2L	Deep green leaves set off lilac purple flower spikes which appear at the end of the summer. A beautiful plant for part shade and moist or wet soil or to grow in a container in a shady spot.	11	5.550
HOSTA Francee	2L	Rounded leaves which are dark green with a prominent white margin. Spikes of lilac flowers in late Summer. Best in part shade and retentive soil or to grow in a large container.	9	5.550
HOSTA Frances Williamson	2L	Huge blue green leaves are edged with soft yellow. A lovely Hosta for a shady position where the leaves will add a cool look to the border. Great as a container plant in part shade. Spikes of soft lilac-white flowers in late summer.	10	5.550
HOSTA Halcyon	2L	Good clumps of attractively shaped, medium sized blue leaves. For shade or part sun and soil which is not too dry. Short spikes of lavender purple bells in late Summer.	16	5.550
HOSTA Royal Standard	2L	Narrow, lime green leaves form a good clump, especially in heavy soil. The scented, white flowers are held on long stems in late Summer. Best in some shade and retentive soil. Also suitable for a large container.	11	5.550
HOSTA sieboldiana var. elegans	2L	Huge blue grey leaves make a statement in a big pot or partly shaded border. Spikes of white flowers in late summer followed by attractive seed pods. Best in retentive soil but will tolerate dry conditions once established.	14	5.250
IRIS Desert Echo	2L	Deep, sandy yellow flowers with a contrasting orange beard and a white flash on the falls. Flowers appear in summer above spiky leaves. For sun and well drained soil.	14	3.950
IRIS English Cottage	2L	Ruffled white flowers which have pale violet markings and a white beard. First flowers appear in May and are followed by a second flush later in the summer. For sun and well drained soil.	23	3.950
IRIS ensata Rose Queen	2L	Large flowers with drooping falls in Summer, which are a beautiful shade of rose pink. Grows well in most soil types and sun or shade, but especially useful in damp soil in a bog garden or as a marginal.	14	4.950
IRIS Florentina	2L	Orris Root. Fields of these are still grown in Italy. This old variety has rhizomes which are ground up and used as a fixative for perfumes and in pot pourri. The flowers are very pale blue and scented of violets. Requires full sun & good drainage.	8	3.950
IRIS siberica Butter and Sugar	2L	Siberian Iris for sun or part shade and moist or boggy soil. White and yellow flowers on strong stems in early summer. Sword shaped leaves add a vertical accent to the middle of a border or bog garden. Also suitable as a marginal in a pond.	13	4.250
IRIS siberica Silver Edge	2L	Compact grower for damp soil in sun	9	4.950

or shade. Also suitable for heavy soil on the edge of a bog garden. Sword shaped leaves make a statement and the flowers appear in summer. They are soft blue with a white edge to the petals. Cut old growth to the ground in early spring before the new shoots appear.

IRIS siberica Sparkling Rose	2L	Beautiful form of Siberian Iris with deep wine red flowers which have a yellow splash on the falls. Easy to grow in most situations, especially in moist soil and part shade. Ideal to give height to a bog garden.	9	4.550
KIRENGESHOMA Koreana Group	2L	Beautiful plant for a woodland setting, in cool humus rich soil. Attractive leaves quickly make a strong clump of fresh green in spring. Upright stems appear in late summer and are topped with creamy yellow flowers. Plant in drifts for best effect.	7	5.550
KNIPHOFIA Drummore Apricot	2L	Red Hot Poker for sun or part shade and soil which is not too dry in summer. Large heads of apricot orange flowers appear from green buds, on bronze coloured stems. June to August flowering. Excellent for coastal gardens.	11	4.250
KNIPHOFIA Painted Lady	2L	Excellent late flowering perennial for full sun. Long, narrow pokers of creamy yellow from coral orange buds appear from June to September. Good plant for coastal locations and soil which is not too dry in summer.	17	4.250
KNIPHOFIA Sunningdale Yellow	2L	Beautiful early flowering form of Poker with golden yellow flower spikes over a long season. For sun and soil which is not too dry. Excellent coastal plant.	18	4.550
KNIPHOFIA Jenny Bloom	2L	Luminous, narrow apricot 'pokers' for a long season from early Summer. For sun and soil which does not get too dry, where the plant will make a clump of grassy leaves. Excellent coastal plant.	8	3.950
LAMIUM maculatum Anne Greenaway	1.5L	Clusters of pink flowers from early spring onwards are loved by bees. Leaves are semi-evergreen. Ideal low growing ground cover for a shady border in soil that isn't too dry in summer.	7	3.950
LATHYRUS vernus	1.5L	Makes a low mound of attractive leaves, in sun and most soil types. Striking purple flower racemes appear in early spring. Dies right back in winter, so remove the old growth in spring.	21	4.550
LEUCANTHEMUM Banana Cream	2L	A compact form of Shashta Daisy which produces creamy yellow daisies on sturdy stems throughout summer. Easy to grow in most soil types and excellent in a container for summer colour. Remove spent blooms regularly to encourage more. Compact habit.	33	4.550
LEUCANTHEMUM Sonnenschein	2L	A medium grower with very unusual single flowers of pale yellow,	8	4.550

LIBERTIA grandiflora	2L	fading to white, which look lovely with the sunlight behind them. Architectural clumps of strappy, evergreen leaves, which set off the pure white flowers that look like butterflies floating on wiry stems. Summer flowering. For sun and well drained soil. An excellent plant for exposed coastal gardens, where it will seed gently. May require winter protection in colder parts of the country.	15	5.550
LIMONIUM platyphyllum	2L	Sea Lavender. Evergreen, leathery leaves grow flat on the ground making a spreading clump. Wiry stems of small, mauve flowers in summer, which can be used fresh or dried in arrangements. Needs well drained soil and full sun. Excellent for coastal gardens.	30	3.950
LUPINUS Gallery Series	2L	Mixed colours including blue, red, pink, yellow and white. Dwarf growing and flowering throughout Summer. Sun and well drained soil.	13	4.550
LYSIMACHIA Candela	2L	For sun or part shade and moist soil. Attractive, dark green leaves on strong stems which are topped with spires of white, star like flowers for weeks in late summer. Good autumn leaf colours of orange before the plant dies to the ground for winter.	48	4.950
LYTHRUM salicaria Blush	2L	Spikes of pale pink flows are attractive to bees and other insects. Flowers appear from midsummer for several weeks. An upright perennial for the back of a border in damp or wet soil. Easy to grow - spreads slowly.	21	4.950
MONARDA Cambridge Scarlet	2L	Bergamot or Bee Balm. Beautiful perennial for sun or part shade and moist soil. Scented, grey green leaves make a spreading clump that will quickly cover the ground. Deep red, ruff like flowers appear on tall stems in summer and are loved by bees and other insects.	26	4.950
MONARDA Loddon Crown	2L	For sun or part shade and soil which is not too dry in summer. Scented leaves, which spread to make a good clump of ground cover. The showy, reddish maroon flowers appear in late summer, like ruffs around the sturdy stems. Cut old stems to the ground in spring. Flowers are loved by bees.	64	4.950
MONARDA Scorpion	2L	Purple flowers in summer are loved by bees. Makes a clump of slowly spreading stems with scented leaves. Best in retentive soil and part shade.	15	4.950
NEPETA racemosa Walker's Low	2L	Low growing form of Catmint with mauve blue flowers in Summer. Excellent at the front of a dry border to edge a path. Best in full sun.	59	4.950
NEPETA Six Hills Giant	2L	Upright growing Catmint for sun and well drained soil. Makes a beautiful edging plant for a path or border where it will flower throughout Summer. Pale blue flowers are loved by bees and butterflies. Cut back hard in Spring once new growth is seen.	52	4.950
OMPHALODES verna	1.5L	Bright blue flowers in spring and early summer above fresh green leaves. Best in part shade and retentive soil. A good plant to	13	4.950

		grow under trees where it will spread slowly.		
OMPHALODES verna Alba	1.5L	Fresh green leaves spread slowly to make ground cover. Clusters of white flowers appear in spring and early summer. Best in part shade and retentive soil.	27	4.950
OPHIOPOGON planiscapus Nigrescens	1.5L	Evergreen, black grass like leaves for sun and well drained soil. The flowers appear in clusters in Summer and are pinkish mauve. They are followed by black berries.	10	3.950
Papaver 'Beauty of Livermere	2L	Long lived perennial Poppy which has large red flowers with a central boss of black stamens. The flowers appear from fat buds on sturdy stems at midsummer. For sun and well drained soil. Prune to the ground, leaves and all after flowering to encourage new growth.	11	4.950
PAPAVER rupifragum Tangerine Gem	1.5L	Silver-green leaves make a low mound and are a good back drop to the bright orange flowers that appear through summer. Ideal for the front of a sunny border, rock garden or Cornish hedge in well drained soil.	41	4.550
PENSTEMON Blackbird	2L	A tall growing plant with deep reddish purple flowers through summer. Easy to grow in sun and soil which is not too dry. Makes a good cut flower. May require staking.	11	3.750
PERSICARIA affinis Darjeeling Red	2L	Easy to grow in sun and well drained soil, where the plant makes excellent ground cover. Deep red spikes of flowers appear from Spring into Autumn.	12	4.550
PERSICARIA affinis Donald Lowndes	2L	Easy to grow in sun and well drained soil. Excellent for a dry bank or wall. Fresh green leathery leaves are good ground cover and salmon pink spikes of flower are produced for a long season from late Spring to Autumn.	13	4.550
PERSICARIA microcephala Red Dragon	2L	A beautiful perennial for part shade and soil which does not get too dry where it will slowly spread. Attractive burgundy red leaves have white markings and set off the clouds of small white flowers in Summer. May require winter protection in colder parts of the country.	13	4.550
PHLOX paniculata Blue Boy	2L	For sun and soil which is not too dry in summer. Purple grey leaves slowly make a clump and in summer, the heads of flat lavender purple flowers appear over many months. Easy to grow and much loved by bees.	24	4.550
PHLOX paniculata David	2L	Beautiful plant for sun and soil which is not too dry in summer, where it will form a long lived clump of deep green leaves. Scented, pure white flowers with a green eye are borne in large panicles through summer. Easy to grow.	15	4.550
PHLOX paniculata Flame Coral	2L	Long lived perennial for sun or part shade and soil which is not too dry in summer. Bright, coral pink flower spikes appear over a long season in summer. Compact habit. Attractive to butterflies.	19	4.550
PHLOX paniculata Flame Pink	2L	Compact growing, long lived perennial for a sunny border in soil that is not too dry in summer. Bright pink flower clusters have a deeper pink centre and appear over a long season from midsummer onwards. Easy to grow and loved by	22	4.550

		butterflies and bees.		
PHLOX paniculata Flame Purple	2L	Compact growth of deep green leaves make a slowly spreading clump in sun and soil which is not too dry in summer. Spikes of pink / purple flowers appear in summer. Scented and attractive to butterflies and other insects. Easy to grow.	14	4.550
PHLOX paniculata Flame White	2L	Compact growing perennial Phlox for sun or part shade and soil which is not too dry in summer. Large clusters of flat white flowers with a pale pink eye appear over a long season from mid summer onwards. Easy to grow and long lived in the garden.	19	4.550
PHLOX paniculata Jade	2L	Long lived perennial for sun or part shade and retentive soil. Upright stems hold clusters of flat flowers in early summer that are whitish green. An unusual colour that's easy to place in a border.	39	4.950
PHLOX paniculata Uspek	2L	Long lived perennial for sun or part shade and soil which does not get too dry in summer. Spires of light blue flowers which have a central white ring, are borne from July to September on sturdy stems. Easy to grow and makes a good cut flower. Attractive to butterflies and bees.	11	4.550
PHLOX paniculata Windsor	2L	A long lived perennial for sun and retentive soil. Clusters of bright pink flowers in summer have a delicate scent. A cottage garden favourite.	13	4.950
PRIMULA japonica Alba	2L	Candelabra Primula for damp or wet soil and part shade. Pale green leaves make a rosette and the flower stems hold tiers of pure white flowers from pink buds in June. Excellent plant for a cool, moist border or bog garden where it may seed gently.	56	3.950
PRIMULA japonica Apple Blossom	2L	Bog Primula for wet soil in part shade. Pale green leaves appear in early spring and spikes of pale pink flowers are borne in late spring and early summer. May seed gently if the plant likes your garden!	54	3.950
PRIMULA japonica Miller's Crimson	2L	Candelabra Bog Primula. Deep pink flower spikes in late Spring and early Summer. For wet or moist soil and sun or part shade where the plants will gently seed themselves. Best in a bog garden or as a marginal in a pond.	39	3.950
PRIMULA pulverulenta	2L	Candelabra Bog Primula which has deep reddish purple flowers with a darker eye, in early summer. Pale green leaves make a spreading clump which dies back completely in winter to reappear the following spring. For wet soil in part shade. Seeds gently if the plant likes your garden.	50	3.950
PULMONARIA Trevi Fountain	1.5L	Broad, pointed leaves which are conspicuously spotted with silver. Pink and blue flowers appear in spring. For shade and soil which is not too dry in summer. Cut back hard when the plant has finished flowering.	7	4.950
RUDBECKIA Goldsturm	2L	A long lived perennial which is easy to grow in sun and soil which is not too dry in summer. Bright golden yellow daisies with black centres are borne over a long season from August onwards. Excellent for	13	4.950

		flower arranging and attractive to bees and butterflies.		
SALVIA Dyson`s Joy	1.5L	Clusters of pale pink flowers appear over a long season through summer and into autumn. Requires full sun and well drained soil. Ideal for a large container. May require winter protection in colder areas.	42	4.950
SALVIA Embers Wish	1L	Ideal for a container in a sunny spot. Spikes of orange and red flowers appear through summer and into autumn. Glossy evergreen leaves. Best in well drained soil and full sun. May require winter protection.	20	2.500
SALVIA greggii Icing Sugar	1.5L	For sun and well drained soil or a large container. Spikes of bright pink flowers through summer and autumn are loved by bees. Aromatic leaves. May need protection in cold weather.	50	4.950
SALVIA Hot Lips	1.5L	Half hardy perennial for sun and well drained soil. Excellent plant for a summer container where it will flower until the frosts. Red and white flowers cover the plants. Guard against slugs and snails. Drought tolerant.	15	4.550
SALVIA Love & Wishes	2L	Half hardy perennial for sun and well drained soil. Exotic flowers for months through summer. Evergreen leaves. Great in a big pot on a patio or at the front of a border in sun or part shade and well drained soil. Requires winter protection.	27	4.950
SALVIA microphylla Trelissick Cream	1.5L	Half hardy perennial for sun and well drained soil. Creamy white flowers for months in summer are loved by bees. Makes a mound of soft green leaves for the front of a border or a big pot in a sunny spot. Requires winter protection in cold areas.	50	4.550
SALVIA microphylla Trelissick Cream	5L	Half hardy perennial for sun and well drained soil. Creamy white flowers for months in summer are loved by bees. Makes a mound of soft green leaves for the front of a border or a big pot in a sunny spot. Requires winter protection in cold areas.	15	6.950
SALVIA nemorosa Caradonna	2L	For sun and well drained soil. Aromatic leaves make a low clump and deep violet-purple flowers appear on dark stemmed spikes through summer. Easy to grow. Attractive to bees.	9	4.950
SALVIA nemorosa Ostfriesland	2L	Clumps of olive green leaves slowly spread and sprays of violet blue flowers appear over a long season through summer. Plant in sun, on a handful of grit if your soil is heavy to prevent winter waterlogging. Very attractive to bees and butterflies.	144	4.950
SALVIA uliginosa	2L	For damp soil and sun or part shade. Leggy growth which may require staking. Spikes of small, sky blue flowers in late Summer and Autumn at the top of long, wiry stems.	23	4.950
SCABIOSA incisa Kudo	2L	Low growing for the front of a border or in a container. Best in full sun and well drained, limy soil. Mound-like growth is covered in bright pink flowers for months from late spring onwards. Flowers are loved by bees.	18	4.950
SCABIOSA Misty Butterflies	1.5L	For sun and soil which is not too wet in winter, or a large	50	4.550

		container. Compact mounds of dark green leaves show off the elegant, lacy flowers of lilac and pink shades, which appear over a long season from early summer onwards.		
SCABIOSA ochroleuca Moon Dance	2L	Low mounds of grey-green leaves are ideal for the middle of a sunny border and retentive soil. Creamy white flowers appear on long, wiry stems over a very long season through summer and are loved by bees. A cottage garden favourite.	49	4.950
SCABIOSA Vivid Violet	2L	A cottage garden favourite with rounded, violet-pink flower heads on wiry stems produced over a very long season from early summer onwards. Flowers are loved by bees and butterflies. Best in full sun and well drained limy soil.	34	4.950
SEDUM Bertram Anderson	1.5L	Dark purple leaves slowly spread over the ground. Rose pink flowers in clusters during the Autumn. For sun and well drained soil and the front of the border.	9	4.250
SEDUM spectabile Hot Stuff	2L	Fleshy leaves make a spreading clump that's ideal for the front of a border in full sun and well drained soil. Covered in flat heads of flowers from late summer into autumn. Flowers are very attractive to bees and butterflies.	46	4.950
SEDUM Vera Jameson	2L	Hardy perennial for sun and well drained soil, where the plant makes a mound of purple grey leaves. Rich pink flower heads appear from late summer into autumn. Much loved by bees and butterflies.	19	4.550
SIDALCEA Party Girl	2L	For sun and most soil types. Upright habit of scalloped mid green leaves. The flowers are deep purple and appear in spires above the leaves through summer. May die down completely when flowering has finished, but will reappear in spring.	18	3.950
SISYRINCHIUM striatum	2L	Spiky, evergreen leaves for sun and well drained soil. Spikes of primrose yellow flowers appear in Summer. Divide after flowering.	8	3.950
STACHYS byzantina Silver Carpet	2L	Lamb's Ears. Evergreen perennial with furry silver leaves that make dense mats of ground cover. For the front of a sunny, well drained border and excellent in coastal gardens. Rarely flowers.	14	4.950
STOKESIA laevis Alba	2L	Unusual perennial for sun and moist soil. Strap like, evergreen leaves make a low clump and large, flat white flowers appear through summer. Easy to grow at the front of a border and loved by bees and butterflies.	15	4.250
STOKESIA laevis Blue Star	2L	For the front of a sunny border in most soil types. Strap shaped leaves form clumps and the flowers are a beautiful shade of powder blue. They are like flat Cornflowers and appear over a long season from early Summer onwards.	39	4.250
THALICTRUM aquilegfolium	2L	For sun or part shade and soil which is not too dry in summer. Lacy, sage green leaves make a clump and flat clusters of fluffy purple flowers are borne in early summer. Best in the middle of a border - may require staking.	18	4.950
THALICTRUM delavayi	2L	Beautiful lacy grey green leaves, which are late to appear in Spring,	57	4.950

form a good clump in moist shade. The mauve flowers appear in Summer and are held above the plant on tall stems in flat clusters. May require staking.

THALICTRUM delavayi Album	2L	Unusual plant for sun or part shade and soil which is not too dry. Lacy leaves appear in late spring and the clouds of white flowers, which have yellow centres appear through summer. Easy to grow.	30	5.550
THALICTRUM delavayi Hewitt's Double	2L	Lacy leaves, which are late to appear in Spring, make a clump in moist soil and part shade or full sun. The flowers appear in Summer and are clouds of mauvish blue pom poms held in clusters on wiry stems. May require staking.	16	5.550
TIARELLA Spring Symphony	1.5L	Easy to grow in a shady spot under trees where the soil is not too wet. Scented, pinkish white flower spikes are produced over a long season from spring onwards. Semi evergreen.	21	5.950
VERBENA rigida	1.5L	Low growing plant for the front of a sunny, well drained border. Rich purple flower clusters on stiff stems are borne from July until well into autumn. A true perennial which spreads by underground shoots. Loved by butterflies and bees.	31	4.550
VERONICA spicata Moody Blues	2L	Easy to grow in sun and retentive soil. Spikes of blue flowers in early summer which are loved by bees. Leaves grow into a mat of ground cover that's a good choice for the front of a border.	10	4.950
VERONICA spicata Rotfuchs (Red Fox)	2L	For sun or part shade and soil which is not too dry in summer. The plant makes a mat of deep green leaves and fat spikes of deep pink flowers appear on wiry stems from late summer onwards. Remove dead growth in spring, when new shoots appear. Easy to grow.	13	4.950
VINCA minor Azurea Flore Pleno	1.5L	Ground hugging evergreen for part or full shade and most soil types. Deep green leaves on trailing stems, set off the double bright blue flowers which appear from late winter onwards. Rooting as it spreads, the plant makes excellent ground cover.	8	4.950
VINCA minor Bowles' Variety	1.5L	Deep green leaves hug the ground and make an evergreen mat in shade or part sun. Flat, blue flowers appear from late winter through to early summer. Easy to grow in most soil types and also useful for winter containers and window boxes.	20	4.950
VINCA minor Gertrude Jekyll	1.5L	Pure white flowers in spring and sporadically through the rest of the year. Evergreen leaves make a low mat in shade and soil which is not too dry. Easy to grow and good ground cover.	13	4.950
VINCA minor Ralph Shugert	2L	Evergreen for part or full shade and most soil types. Variegated leaves of cream and deep green set off the flat blue flowers which appear from early spring onwards, flowering sporadically through the year. Easy to grow and good ground cover in difficult sites.	37	5.950
ZANTEDESCHIA Green Goddess	2L	Arum Lily for sun or part shade and soil which is not too dry in summer. Large green flowers with a white throat from late spring onwards. Suitable for a bog garden or large container. May require winter	9	4.950

protection in cold areas of the country.

ABELIA x grandiflora	3L	Semi-evergreen shrub for sun or part shade and retentive soil. Fast growing with arching branches that are covered in pink flowers from mid summer until the end of autumn. Prune hard in spring to shape. Easy to grow and look after.	20	6.550
ABELIA x grandiflora Aurea	2L	Golden leaves are a contrast to clusters of scented, pink flowers through summer and autumn. Fast growing with an arching habit. Best in full sun and retentive soil.	44	6.550
AMELANCHIER Lamarckii	2.5L	Beautiful large shrub or small tree for sun or part shade and moist soil. White flowers in spring as the bronze-green leaves appear. Beautiful autumn leaf colours of orange and red before the leaves fall for the winter.	18	6.950
BUDDLEIA davidii Peace	2.5L	Fast growing shrub for sun or part shade and most soil types. Long green leaves set off the spikes of scented, white flowers which have an orange centre. Summer flowering. Very attractive to butterflies and bees.	15	6.550
BUDDLEJA Buzz Indigo	2L	Silver-grey leaves on compact plants. Deep indigo blue flowers through summer are highly scented and attract many butterflies. Dead head regularly to encourage more flowers. For sun and most soil types. Easy to grow.	54	5.550
BUDDLEJA davidii Blue Horizon	2.5L	Beautiful shrub for the back of a sunny border. Very hardy and easy to grow in most soil types. Deep purple-blue, highly scented flower spikes cover the plants in July and August and will attract butterflies, bees and moths.	14	6.550
BUDDLEJA davidii Buzz Series Ivory	3L	Butterfly Bush. Dwarf Buddleja which is suitable for a large container or a sunny border in most soil types. The plant is smothered in sweetly scented, ivory white flower spikes through the summer. Very attractive to butterflies, bees and other insects. Easy to grow.	43	5.550
BUDDLEJA davidii Buzz Sky Blue	2L	Very compact growing Buddleja which is suitable for a large container or a sunny border. Silver grey leaves set off the spikes of soft blue flowers in summer. Very attractive to butterflies, moths and other insects. Easy to grow in most soil types.	12	5.250
BUDDLEJA Lochinch	2.5L	Highly scented spikes of pale mauve flowers on the ends of the branches from mid Summer onwards are attractive to butterflies. Does well in most soil types and sun. Semi-evergreen. Fast growing.	13	6.550
CALLICARPA bodinieri Profusion	2.5L	Slow growing, upright shrub for sun or part shade and soil which is not too dry in summer. Clusters of pale pink flowers are followed by deep purple blue berries which persist through the autumn. Leaves turn plum purple before falling in autumn.	19	6.950

CAMELLIA japonica (in variety)	5L	Easy to grow and unusual. For shade or part shade in acid soil and a sheltered position. Handsome, evergreen shrubs or small trees with glossy, deep green leaves. Showy flowers appear in spring. Can be pruned to shape after flowering. Young plants may require protection from cold winds. See individual labels for flower colour.	10	6.950
CHOISYA ternata	3L	Mexican Orange Blossom. An evergreen shrub with glossy, deep green leaves and scented white flower clusters in Spring and again in Autumn. Easy to grow in most soil types and situations including shady borders and containers. Loved by bees.	40	6.550
CORNUS alba Eleganti ssima	3L	Dog Wood. Shrub for sun or shade and moist or wet soil. Attractive white and pale green leaves through the growing season, which fall in autumn to reveal bright red stems for winter interest. Prune hard every two years in spring. Excellent plant for heavy clay soil.	19	5.950
CORNUS alba Siberica	2.5L	A plant for all seasons! Bright green leaves set off white flowers in spring. In autumn, the leaves turn brilliant red and plum shades before falling to reveal the red stems which are a winter feature. Easy to grow in sun or shade and moist or wet soil.	10	5.950
CORNUS alba Spaethii	2.5L	Dogwood. Deciduous shrub for sun or part shade and wet or moist soil. Striking gold and green leaves turn plum shades in autumn before falling to reveal attractive black stems. Prune hard every second spring to keep the stem colour. Excellent plant for wet soil or the edge of a pond or bog garden.	10	5.950
DRIMYS lanceolata	3L	Evergreen large shrub or small tree for part shade and a sheltered position in most soil types. Handsome, deep green leaves are a feature throughout the year and clusters of scented, creamy white flowers appear in spring followed by black berries in autumn. Excellent plant for flower arranging.	15	6.950
EUONYMUS fortunei Emerald Gaiety	1.5L	Evergreen shrub, trailing or climbing form, which makes good ground cover in shade and most soil types. Slowly spreads to form a clump or trained as a ' wall shrub'.	19	3.750
HYDRANGEA macrophylla Blue Wave	2.5L	Easy shrub for sun or part shade and soil which is not too dry in summer. Large 'mop head' flowers appear in late summer and are a good blue in acid soil. Flowers are pink in soil where lime is present. Remove old flower heads in late spring.	18	6.950
HYDRANGEA macrophylla Izu-no-hana	3L	Deciduous shrub for sun or part shade. Deep green, glossy leaves set off the unusual lace cap flowers that are borne in summer and autumn. Double flowers surround the sterile centres and are pink on lime soils and blue on acid soils. Excellent for flower arranging.	20	6.550
HYDRANGEA macrophylla La France	3L	Deciduous shrub for sun or part shade and soil which is not too dry in summer. Large mid green leaves make a rounded bush, smothered in 'mop head' flowers from mid summer onwards on established plants. The flowers are pink in lime soils and	20	6.550

HYDRANGEA macrophylla Pfau	3L	blue in acid soil. Compact mound forming Hydrangea with lace cap flowers of blue or pink depending on your soil. Flowers appear through summer and into autumn. Best in part shade and moist soil. Ideal for coastal gardens.	9	6.950
HYDRANGEA paniculata Unique	2.5L	Beautiful shrub for the back of the border in sun or part shade and soil which is not too dry in summer. Deep green leaves set off the huge white panicles of flowers, which age to purplish pink. These appear from mid summer onwards. Prune hard to basic framework in spring.	13	6.550
HYDRANGEA serrata Grayswood	3L	Neat, mound like shrub for sun or part shade and soil which is not too dry in summer. Lace cap flowers change colour from white through blue or pink shades depending on the soil acidity. Prune lightly in spring. Easy to grow and suitable for a border or container.	19	6.550
HYPERICUM Hidcote	3L	Semi evergreen shrub for sun or part shade and most soil types. Large, golden yellow, saucer shaped flowers appear over a long season from early summer onwards. Easy to grow. Prune to shape in spring.	12	6.550
LAVATERIA clementii Bredon Springs	2.5L	For sun and well drained soil. Grey green leaves set off the pink mallow like flowers, which appear over a long season from early summer onwards. Prune hard in spring once the new growth appears. Easy to grow. Salt and wind tolerant.	14	6.550
LONICERA x purpusii Winter Beauty	3L	Beautiful winter flowering shrub which is easy to grow in sun or part shade and most soil types. Scented flowers appear from November to March on established plants. Prune to shape after flowering. Deciduous.	16	6.550
LONICERA nitida Twigg	2L	Evergreen shrub for sun or shade and most soil types. The plant makes a very compact mound of small, pale green leaves. Excellent plant for the front of a border or a rock garden.	8	6.950
NEILLIA tibetica	3L	Deciduous shrub for sun or part shade and soil that is not too dry. Upright growth and bronze green leaves that age to green. Clusters of pink flowers appear in late spring and early summer, smothering established plants. Unusual but easy to grow.	9	6.550
OSMANTHUS heterophyllus Purpureus	2L	Evergreen shrub for sun or part shade and most soil types. Attractive holly shaped leaves which are flushed purple. Small, scented white flower clusters in autumn on established plants.	7	6.550
PHILADELPHUS Beauclerk	2.5L	Upright growing shrub for the back of a border. Covered in scented white flowers in summer. Best grown in retentive soil and sun or part shade. Prune to shape after flowering.	9	6.550
PHORMIUM Bronze Baby	2.5L	Evergreen shrub for sun or part shade and most soil types. Upright bronze leaves form an attractive clump in borders or in a large container. Easy to grow. Salt and wind tolerant.	10	13.950
PITTOSPORUM tobira	2.5L	Evergreen shrub for sun or part shade and soil which is not too wet in winter. Glossy leaves on neat mound like plants. Clusters of	8	6.950

scented creamy white flowers appear in early summer on mature plants. Best in a sheltered site or to grow in a large pot. May require protection in winter in colder parts of the country.

SANTOLINA chamaecyparissus	2L	Cotton Lavender. Dwarf growing, evergreen shrub for sun and well drained soil. Scented leaves and golden yellow button like flowers in summer. Suitable for a large container. Excellent plant for coastal locations.	10	4.550
SARCOCOCCA confusa	2L	Evergreen shrub with deep green, wavy leaves. Best in shade or part shade and soil which is not too wet. Highly scented white flowers are produced in clusters up the stems during winter, from November onwards. Slowly spreads through the ground to make good ground cover.	8	6.950
SARCOCOCCA rusci folia	3L	Evergreen shrub which is good ground cover in dry shade but happy in moist soil. Tiny white flowers in early spring are highly scented. Easy to grow in a border or big pot in a shady spot. Prune if required after flowering.	10	6.950
TEUCRIUM fruticans Azureum	2.5L	Slow growing, evergreen shrub for sun and well drained soil, where it will form a mound or climb if given support. Bright blue rosemary like flowers which are loved by bees, are produced over a long season, contrasting well with the leaves. Drought tolerant. Excellent in a seaside garden or to grow in a large container.	20	6.550
VIBURNUM plicatum Lanarth	2.5L	Beautiful shrub for part shade and moist soil. Tiered branches are covered in white lace-like flowers in early summer. Leaves change colour in autumn to scarlet and orange before falling.	13	6.950
VIBURNUM tinus Gwenllian	2.5L	Evergreen shrub for sun or part shade and most soil types. The wavy, deep green leaves set off the clusters of pinkish white flowers which are red in bud. They appear over a long season from November through to March and are followed by deep blue berries. Salt and wind resistant.	7	6.550
